AMAZON CASE STUDY

CAREER MOBILITY

RECRUITMENT AND RETENTION

IN-DEMAND DIGITAL ROLES

The nature of an hourly employee's work at a giant retail and e-commerce organization means that the business inherently experiences significant turnover. Given the lack of career pathways, inflexible scheduling, and the physical demands of the job, employees regularly seek alternative roles. As part of its own Career Choice program, Amazon wanted to provide career mobility opportunities to its hourly employees while ensuring that the training aligned with the digital and data-centric skills required by emerging jobs within its ecosystem.

Correlation One developed training programs specifically tailored to the learning needs of Amazon Associates, combining:

Job-relevant content by experts

Dedicated career support

Tailored teaching methodology

Highly engaged community

TRAINING THOUSANDS OF WORKERS ACROSS CRITICAL FUNCTIONS

Correlation One developed and rolled out customized training and professional coaching solutions to equip thousands of hourly employees across the following functions:

Cloud Support Operations

Salesforce Administration

Cybersecurity

Supply Chain & Logistics

Software Development

Data Analytics

Computer Support Operations

Data Center Operations

HOLISTIC PROGRAMS THAT LEAD TO JOB OUTCOMES

Our solutions have thus far led to over one thousand job placements for Amazon associates.
